Web developer with an educational background, with a passion for learning and problem solving. Adept in both individual or team environments. Seeking opportunities to work in front and/or back-end projects.

TECHNICAL SKILLS

Git, GitHub, HTML, CSS, Bootstrap, Media Queries, JavaScript, jQuery, APIs, AJAX, Firebase, Command Line Interfaces, Node, MySQL

EXPERIENCE

Pocket Guru app (Coding Bootcamp - Tucson, AZ) May 2018

Full Stack Developer

- Worked with team to build a personal wellness and task-management app.
- Designed framework, routing, database queries and manipulation. Assisted with html formatting and css styling.

Beer Rewards app (Coding Bootcamp - Tucson, AZ) March 2018

Full Stack Developer

- Worked with team to build an app to let users find out how many of a selected type of beer they can drink after tracking calories burned from a chosen workout.
- Researched, lobbied for different APIs. Programmed JavaScript and jQuery logic, API data returns and applied to user interface designs.

LIRI Node app (Coding Bootcamp - Tucson, AZ) April 2018

Server Side Developer

- Created an app that allows a user to search Twitter, Spotify, and the Online Movie DataBase for “tweets”, songs, and movies respectively in the command line.
- Wrote JavaScript and Nodejs script with APIs to search for, return, and log data based on user searches.

EDUCATION

University of Arizona - Tucson, AZ January - July 2018

The Coding Bootcamp at the University of Arizona - Full Stack Program

A rigorous and fast-paced program covering theory and application of web development in the span of 24 weeks. Individual and group work on in-class assignments, web apps, projects, and more. Learned skills in both client and server side coding and development.

Pima Community College - Tucson, AZ July 2007 - July 2009

Post-Baccalaureate Elementary Education Certification

University of Arizona - Tucson, AZ January 1999 - May 2001

The School of Business at the University of Arizona - Marketing
