Coding Boot Camp, 2018

CERTIFICATE OF ELEMENTARY EDUCATION

Pima Community College,
Dept. of Education, 2009

BACHELOR OF SCIENCE: MARKETING

University of Arizona,
School of Business, 2001

MATT KING

Full-Stack Developer

ABOUT

I'm a junior full-stack developer and recent graduate of the University of Arizona's Coding Boot Camp. I have a background in elementary education from which I bring my passion for continuous learning and creativity. I'm looking for work in experience in developing web pages and apps in front-end, back-end, or full-stack positions.

PROJECTS

HAPPY HOUR APP

Full-Stack Developer | Jun 2018 - Jul 2018

- A team-created app to find local happy hours. Users can search for, add, and update happy hour specials at their favorite local venues.
- Created MongoDB / Mongoose schema to handle businesses, deals, and user data.
- Set up models, controllers, routes to allow CRUD functionality.
- Set up queries in a React JS format to work with API returns from Google Places geolocation information.
- Coded page displays to allow conditional filtering and rendering on the client-side.

POCKET GURU APP

Full-Stack Developer | May 2018

- A team-created app to track and organize aspects of personal wellness and healthy living.
- Designed an HTML with Handlebars framework and helped with css.
- Set up routing, database queries, and data manipulation with Express / MySQL / Sequelize in a MVC structure.

BEER REWARDS APP

Full-Stack Developer | March 2018

- A team-created app that lets users find out how many beers they 'earn' from differing workouts. Users can calculate calories burned, search for more activities in their community, and learn about new beers of their preference.
- Researched and obtained use of APIs.
- Programmed JavaScript and jQuery logic, API data returns, and applied all to the user interface.

OTHER PROJECTS & APPS

Full-Stack Developer | January - July 2018

- Visit my portfolio to see my work in other small applications.
